Case Study 5 – High-Reliability Healthcare Systems

Team members:

Michal Ďuračík

Desislava Nikolova

David Riff

Matea Žilak

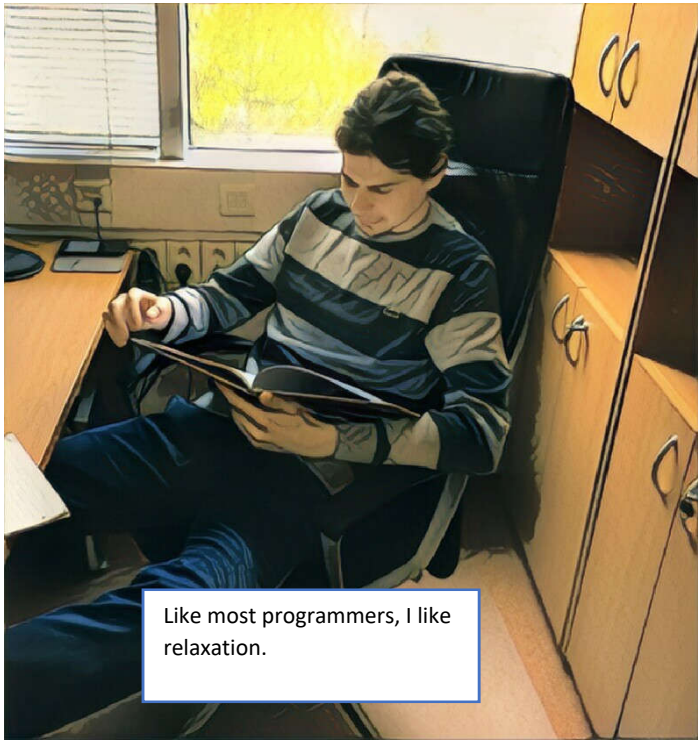

Hi, I'm Michal. I'm from Slovakia and now studying PhD in Faculty of Management Science and Informatics in Žilina.

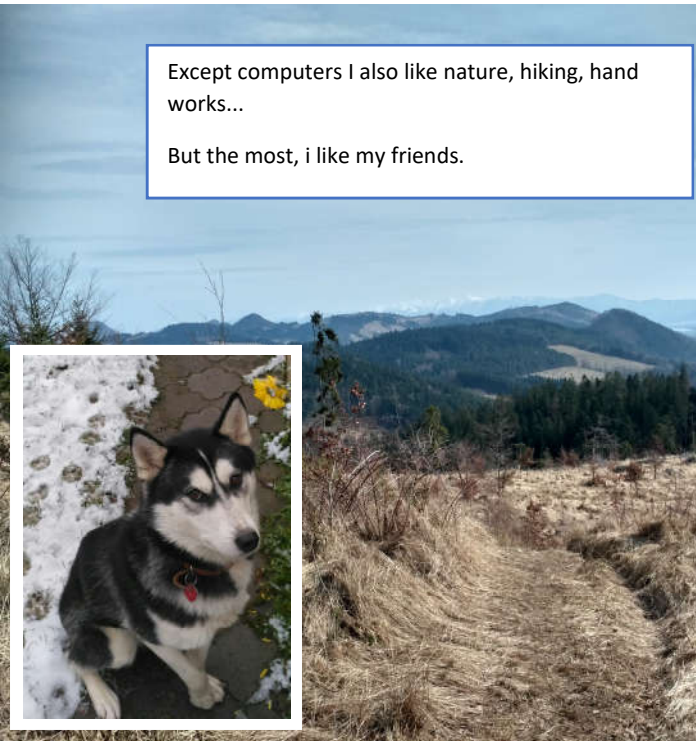

I graduated master last year in informations systems field of study.

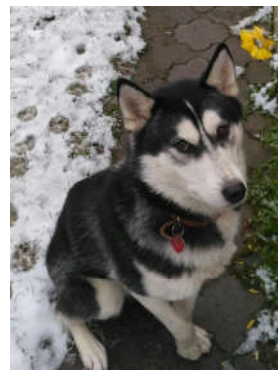

Most time i work on computer like programmer, developer, analyst...

Like most programmers, I like relaxation.

Except computers I also like nature, hiking, hand works...
But the most, i like my friends.

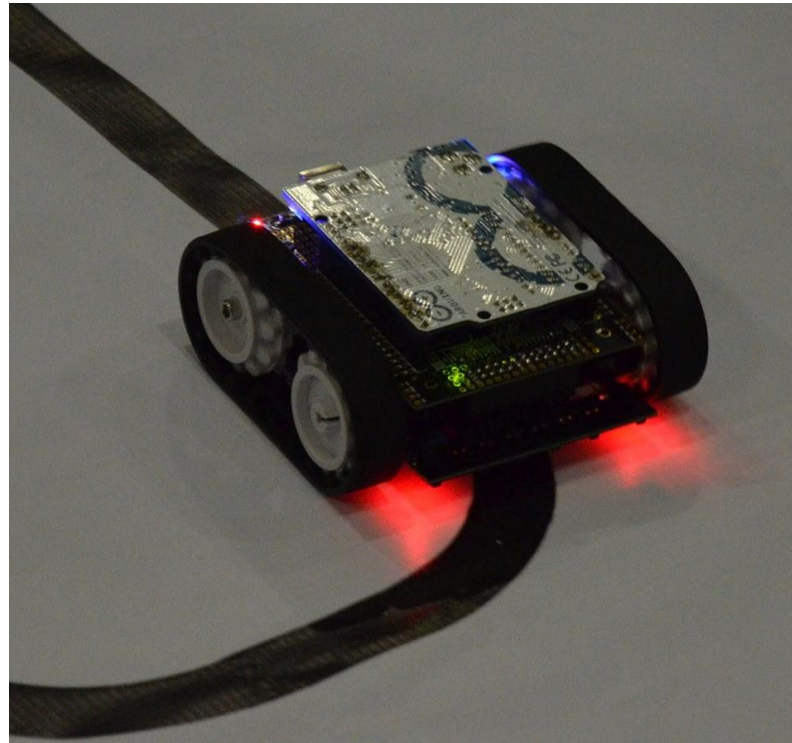

My name is **Desislava Nikolova**.

- I'm a student in Technical University of Sofia, Bulgaria.
I study Telecommunications.

- My favorite hobbies are making robots, playing with VR, reading books and having long philosophical or psychological conversations with friends.

- My normal hobbies are climbing mountains, playing tennis and other sports.

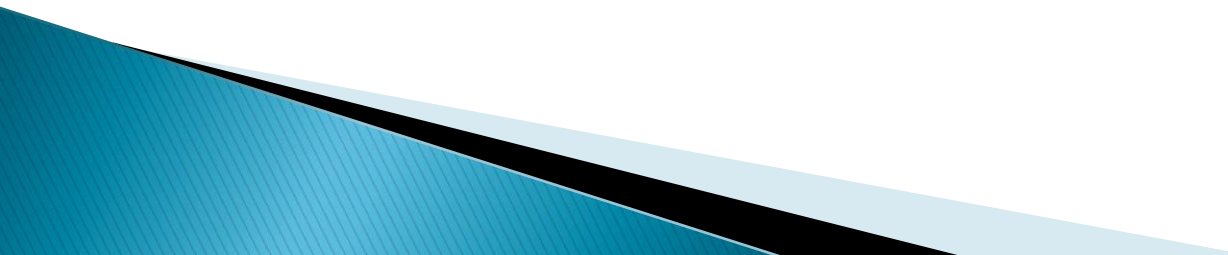

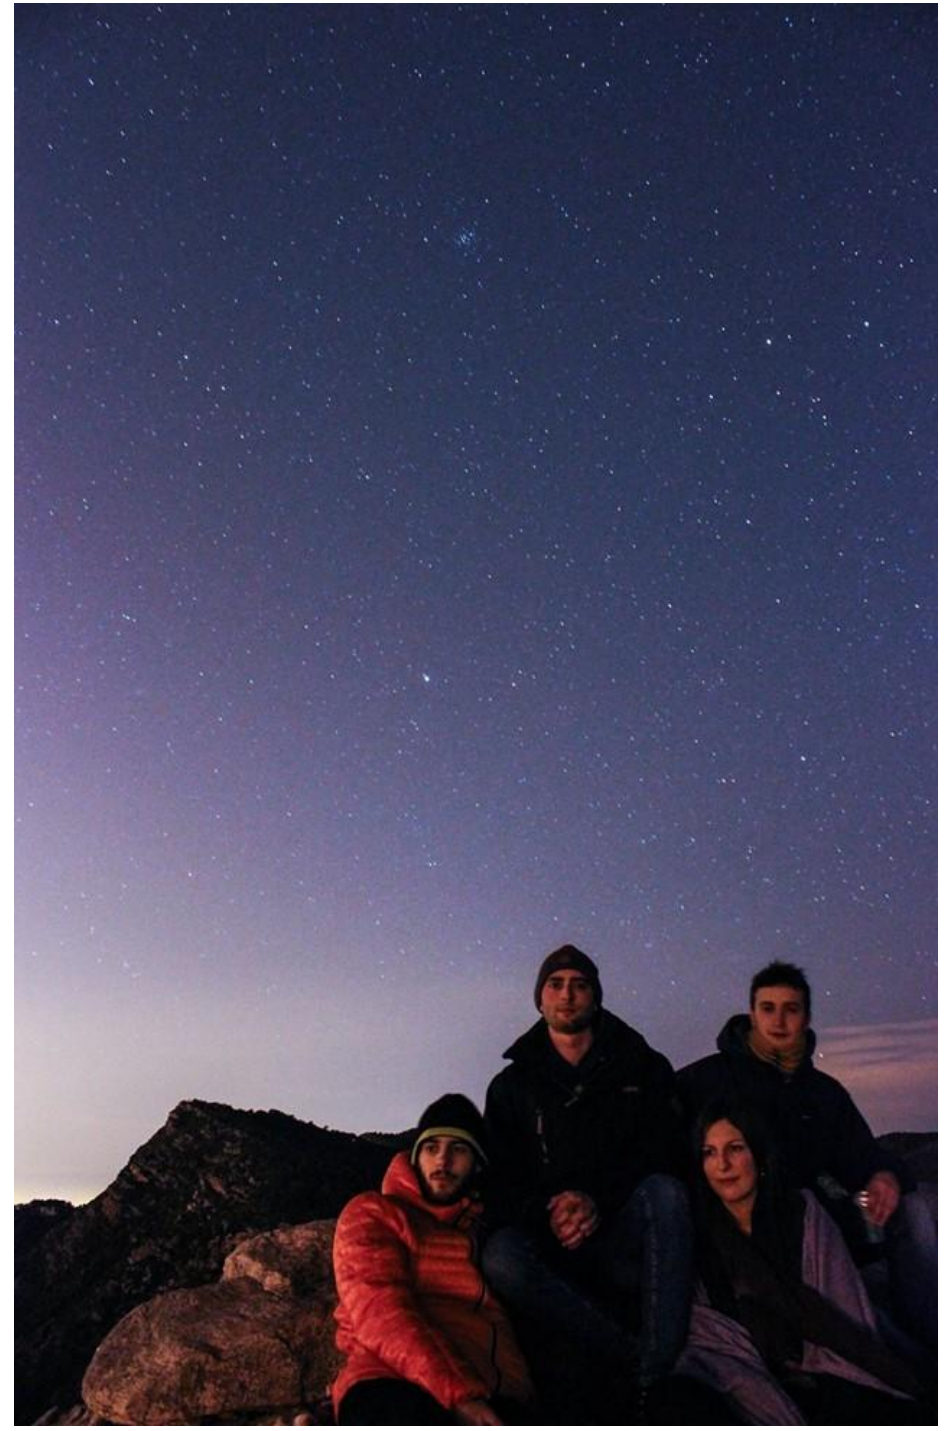

- I'm a strange person, but once I have a chat with the people around me, everything is possible.

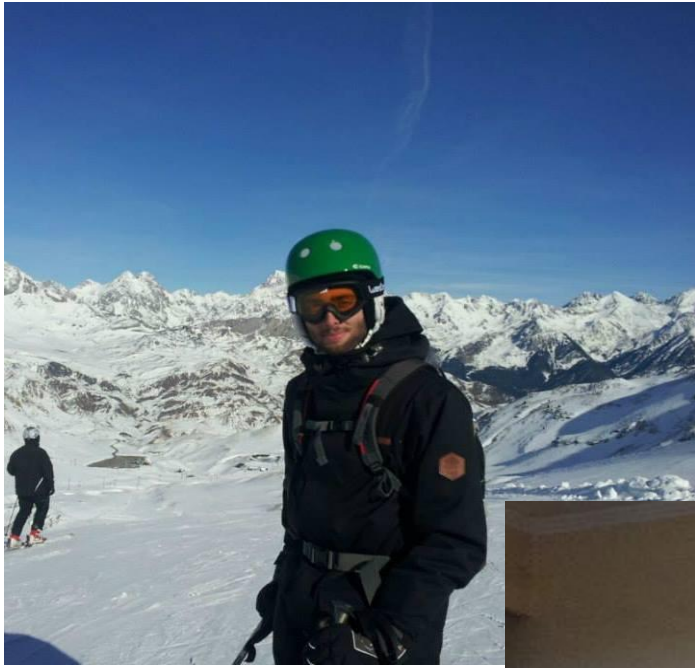

Hi ! I'm David, Telecommunication engineering student at the UPV (Valencia)

- What I like the most.... ?
 - Everything !
 - I like diving, climbing, partying, reading, skiing, biking, traveling, eating and cooking
 - Talk, listen, see new things, la playa ;) , mountains, camping
 - Technology, cyber security, Linux...
 - Scroll down for some photos, see you soon !
- 

Hi! I'm Matea and I'm a student at Faculty of Electrical Engineering and Computing in Zagreb (Croatia).

Currently I'm a happy bachelor but I hope to graduate soon so I can be a real master 😊

At first sight I'm very shy, but actually I'm very communicative and friendly person.

I'm really a good listener.. But sometimes I want to be heard 😊

I play volleyball for a long time and I like team sports. But I'm very competitive so I like individual sports too 😊

Friends, family and coffee are the things that most make me happy 😊

- different point of view on the domain of our case study due to coming from different countries
- high motivation and excitement about the project
- capable to work successfully under pressure

- no previous experience on the subject of high-reliable healthcare systems
